About Me

As a fresher seeking a challenging role in the field of software development, I am eager to apply my knowledge and skills in Fullstack development, core java, MySQL, HTML, CSS, and basic knowledge of Spring Boot to a dynamic and innovative company.

Internship

Company Name: DIGIADD

-2022

Domain : Embedded System Design

Description :

As an intern in the Embedded System Design team at Digiadd, I have gained valuable experience in designing and implementing cutting-edge technology solutions. During my internship, I worked on a project related to agricultural modeling, specifically focused on maintaining pesticides and plant growth. That could monitor and control various aspects of the agricultural environment, such as temperature, humidity, and soil moisture detection

Project

Project Name: "Auto temperature scan entry system and Covid-19 suspect detection"

To develop the system, I first obtained a dataset of COVID-19 patients and non-patients and used it to train a machine learning model. The model was built using various machine learning algorithms, including logistic regression, decision trees, and random forests.

Project Name: " Placement Model Application"

As a software developer, I led a team in the development of a College Model Application Project. This project was developed using Core Java, HTML, CSS, and MySQL for the frontend, and SpringBoot for the backend.

Education

East West College Of Engineering

-2022

Bachelor of Engineering

Electronics And Communication

Shree Siddaganga PU College ,Tumkur

-2018

Pre University Education

PCMB (Science)

SDM Secondary School, Ujire

-2016

SSLC

Language

English 

Kannada 

Hindi 

Telgu 

Skills

- Java
- Ooops Concepts in Java
- MySQL
- Manual Testing
- Software Testing
- HTML/CSS
- Automated Testing
- Basics of Javascript
- Node.Js
- Angular Js
- React Js

Hobbies

- Drawing
- Story writing
- Watching movies
